

## THE FLEXIBLE HUMAN MACHINE INTERFACE (HMI) FOR INDUSTRY 4.0

### ALL-IN-ONE SWITCH

Combining the option to easily configure settings, along with the hardware advantages of status, signal, and 7-segment display all-in-one switch; CANEO series4X can easily integrate into HMI applications and modern system controls.

### CUSTOMIZABLE FEATURES

- ✓ Implement discretely or with IO-Link
- ✓ Activation type (toggle, dynamic, static)
- ✓ Activation time (max, min)
- ✓ Colors and LED programming (flashing, pulsing, static)
- ✓ Output mode (PNP-NO, PNP-NC, NPN-NO, NPN-NC)
- ✓ Assign one of 16 million luminous colors to individual users

### STANDARD FEATURES

- ✓ Durable hardware designed for over 100MM actuations
- ✓ Capacitive technology means zero actuation force required
- ✓ Large touch surface simplifies operation
- ✓ Scrolling texts and timers can be mapped even without a PLC
- ✓ Easy installation

# CANEO series4X

## FOR INTELLIGENT WORK ENVIRONMENTS

### AUTOMATION

- ✓ Zero downtime
- ✓ Flexible system integration
- ✓ Saves time and money on maintenance and replacement

### INTRALOGISTICS

- ✓ Displays precise instructions
- ✓ Built tough for repeated use
- ✓ Intuitive and ergonomic design
- ✓ Configure settings easily

### LIFE SCIENCES

- ✓ Meets highest hygienic standards
- ✓ Wash-down capable
- ✓ Actuates for operators wearing gloves

## EASY INSTALLATION

Screw mounting, housing for 22.5mm mounting with knurled nut, or adhesive mounting depending on product.

Available with M12 connector or stranded wire connection

(M12 cables sold separately)
